

Riparian Resilience - Protect & Improve

Boundaries don't protect rivers, people do.

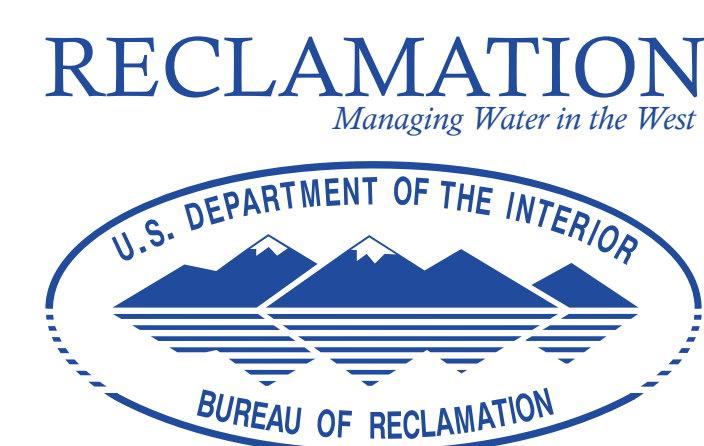

~Brad Arrowsmith, Landowner along the Niobrara National Scenic River, Nebraska

RIPARIAN RESILIENCE

Riparian resilience is the ability for the system to recover from disturbances and will promote the long-term sustainability of our watersheds.

Plants Protect Stream Banks from Erosion

WHAT PUBLIC LAND MANAGERS DO FOR RESILIENCE

Conduct Projects With Staff and Volunteers.

Provide Youth Education Programs.

Develop Plans with Public Input.
